Task 1.1

Problem

This is our problem.

Solution

Here we have our solution:

i	1	2	3	4	5
x	x_1	x_2	x_3	x_4	x_5

Task 1.2

Problem

This is our second problem which is quite complex.

Solution

Here we have our solution, which is even more complex:

$$\sum_{i=1}^{n} x_i = \frac{n * (n + 1)}{2}$$
